

CLASSES VI TO XII · NO FEE · BEGINNERS WELCOME

Canva Pro. Microsoft 365. GitHub. Yours, free.

Join the Maples Tech Club and you get the paid versions of the software everybody else buys. **Not a trial. Not a student discount. Free, for as long as you are a student here.**

WHAT IT WOULD COST YOU	WHAT YOU PAY	WHAT WE ASK FOR
₹11,000+ a year, if you paid retail for just the first two	₹0 no membership fee, no test fee, nothing	2 hrs one session a week, after school hours

What every member gets

all of it legally licensed to you through the school

Canva Pro Every premium template, font and stock photo. Magic Studio AI. Videos, posters, presentations. ₹4,500 / yr → FREE	Microsoft 365 Word, Excel, PowerPoint and Outlook, Teams, and 1 TB of OneDrive storage. ₹6,899 / yr → FREE	GitHub Student Pack Copilot, unlimited private repositories and 100+ paid developer tools. FREE	Google Workspace Your own school email, Classroom, Drive, Docs, Sheets, Meet. FREE
Figma The design tool real product teams use. School students get the top plan. FREE	Autodesk & Tinkercad 3D design and printing, circuit simulation, CAD for school students. FREE	JetBrains IDEs The editors professional programmers pay thousands of rupees for. FREE	Notion Notes, planners, project boards and databases on the Plus plan. FREE

Every one of these unlocks the moment our school switches on its own email addresses — yourname@mapleskhatauli.com. The school already owns the domain. Getting it registered with Google is **exactly what this club is for**. You are not just joining a club. You are the reason the whole school gets this.

How you get in

- 1

Give your name to your class teacher
By Wednesday, 14 October 2026. No form to buy, no fee, nothing to prepare.
- 2

Sit the online test
On your own phone or a school computer. Separate paper for Classes VI–VIII, IX–X and XI–XII, so nobody competes against a senior.
- 3

Make one small thing — one week
A poster, a web page, a Scratch game, a working circuit, a short video. Your choice. Finishing it matters far more than how neat it looks.
- 4

A five-minute conversation
Tell us what you made and what went wrong while making it. Then names go up on the notice board.

SELECTION TEST · ONLINE

Saturday,
17 October 2026

11:00 am · 30 minutes

- **Held class-wise.** You are only ever compared with students of your own class group.
- Patterns, simple reasoning and basic maths — the level of your own class.
- One written answer: **a problem in our school you would like to fix.**
- **No coding.** No computer knowledge needed. Nothing to study for.
- Link comes to your class group the evening before.

TO ENTER Give your name to your class teacher by Wednesday, 14 October 2026.	That is the whole application. No fee. No form to buy. Ask any Class XII student if you want to know more.
---	---

- No fee, ever
- Complete beginners welcome
- 40% of seats kept for Classes VI–IX
- Girls strongly encouraged to apply
- Club stops 4 weeks before every exam
- Open workshops for everyone, test or no test

The honest small print. The Maples Tech Club is proposed and is awaiting the Principal's approval, so dates may shift. Every programme named here is the provider's own free education offer to verified schools and their students, and each one needs the school to be registered first. Canva for Education reaches students through a class created by a teacher. GitHub requires you to be 13 or older. Microsoft 365 Education gives you the web and mobile apps. Nothing here is pirated, cracked or shared — all of it is licensed to you properly, through the school.

Retail prices checked September 2026: Canva Pro ₹4,500/yr, Microsoft 365 Personal ₹6,899/yr.
Proposed by Harsh, Class XII, Roll No. 13. Full proposal with official links is with the Principal.
